CHICKPEAS

*Wholesome, hearty, and packed with protein :
discover the endless possibilities of chickpeas in your favourite recipes!*

Indian chickpeas, also known as garbanzo beans, are a popular legume that originated in the Mediterranean and Middle Eastern regions, but are widely cultivated and consumed in India.

Chickpeas are a rich source of protein, fiber, vitamins, and minerals, including folate, iron, and magnesium. They have several health benefits, including promoting digestive health, reducing the risk of heart disease, and helping to manage blood sugar levels.

COFFEE

*"For a smooth and refined flavor, choose the rich and aromatic Arabica coffee.
For a bold and strong taste, go for the robust and powerful Robusta coffee."*

Indian coffee is renowned for its rich flavour, aroma, and smooth texture. Our coffee is produced in the southern regions of India, where the climate and soil conditions are perfect for growing two distinct varieties of coffee beans: Arabica and Robusta.

Arabica beans are known for their delicate and complex flavour notes, which often include fruity or floral undertones. They are grown in the higher elevations of the region, where the cooler temperatures allow the beans to mature slowly and develop their distinctive flavour profile.

Robusta beans, on the other hand, are grown in the lower elevations and are known for their full-bodied flavour and higher caffeine content. They are often used in blends to add depth and intensity to the coffee's overall flavour.
